

2010 MIDDLE SCHOOL SCIENCE DAY RESERVATION FORM

You'll receive one FREE teacher/chaperone ticket for every 10 admission tickets you purchase (lunch is not included with the free chaperone tickets). Additional teacher /chaperone tickets can be purchased at the student rate which includes lunch. There is no difference between student and teacher chaperone tickets at the main gate entrance, so feel free to use any extras for your students! When estimating your attendance, first take the total number of students and teachers/chaperones attending and then determine the number of free tickets. Students with season passes do not count in this total, as they are not purchasing admission tickets but will need to purchase a lunch. Any tickets not used may be returned for a refund.
